

M17 | LIGHT TRUCK

Product detail

- Compounded with Leader Rubber Company's exclusive ULTRA TUFF compound.

Application

- For all wheel positions especially where traction is required in on/off road conditions.
- This product is outstanding when used on both radial and cross-ply casing applications from good roads to muddy conditions.

Features & Benefits

- Cool running diagonal lug design provides for good mileage and traction capabilities in on/off road conditions
- Wide open grooves eliminates stone trapping and enhances casing protection
- Diagonal grooves clean out debris from the footprint area and provides excellent traction.
