

RDR LDI

ALL POSITION

The RDR LDI is a durable all-position tread designed for long-distance and regional applications. Its deep tread pattern provides excellent traction and mileage, while optimized block geometry ensures even wear and long-lasting performance. The RDR-LDI is a durable all-position tread designed for long-distance and regional applications. Its deep tread pattern provides excellent traction and mileage, while optimized block geometry ensures even wear and long-lasting performance.

Excellent stability, good water dispersion, smooth running and passenger comfort.

Low heat built-up and increased mileage
Wear resistance and low tread usage on mixed and tortuous routes together with reduced lateral scrubbing.

Grip and traction even on slippery surfaces. Good braking control.
Resistance to chipping and scrubbing
