

RTA

TRAILER

A light tread with a linear design is tailored for vehicles operating over long distances. It ensures excellent mileage performance and minimal operating costs. Due to its light tread, it proves highly beneficial for second-life retreads.

Demonstrating exceptional directional stability, smooth running, and outstanding water dispersion, this tread design also boasts improved heat dispersion, leading to reduced tread wear as a consequential benefit.

 mm	 mm		 mm	 no.	Sizes	Code
295	14,0	M	3185	27	385/65R22.5	RL21025020C

Demonstrates exceptional directional stability, ensuring a smooth and steady ride.

Effectively disperses water, contributing to excellent wet-weather performance.

Enhances heat dispersion, leading to reduced tread wear and improved longevity.
